

METER DEVICE DISCONNECT SLEEVES

PRODUCT DATA SHEET

Provides electric utilities with a quick, safe, and economical option to temporarily disconnect electrical service while leaving the meter on-site.

FEATURES

- Extended flaps on end of sleeve for added protection.
- Insulates the jaw from other live parts while allowing for easy removal during reinstallation.
- Fits all manufacturers' meter blades.
- High dielectric strength.
- Non-hydroscopic.

SPECIFICATIONS

- 8 mil, lay flat Kodar® PETG polyester plastic
- Nominal insulation factor: 100V/mil
- Melting Point: 250° C
- A.C. Voltage Test: 4000 V Sec.
- Jaw insertion without tear: Tear Strength = 1500lb/in.
- Rated up to 200 Amps.

PACKAGING

- Master Pack of 144 (6 envelopes, 24 sleeves per envelope)

APPLICATIONS

For use with any bladed electric meter socket.

MODEL # 600-MDDS
