

PTR SERIES ADAPTER

Product Data Sheet

Brooks' PTR (Poly-Phase Transformer Rated) Adapter is ideal for upgrading three-phase A-base transformer-rated installations to accommodate socket style meters.

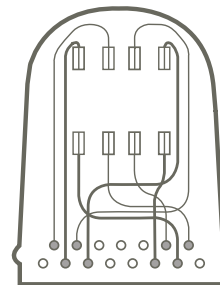

FEATURES

- Rated 30 Amps Continuous.
- UL Listed, NEMA 3R Rated Device.
- Constructed of impact-resistant injection-molded polycarbonate with UV inhibitors.
- Integrated clear polycarbonate dead-front safety shield for maximum safety.
- Available with 10-9090 screw-type sealing ring pre-installed.

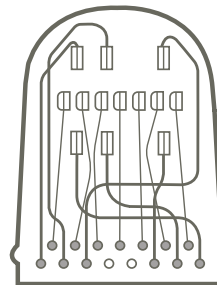

APPLICATIONS

The Brooks' PTR Series Adapter allow A-base services to conveniently accept socket-type meters without changing out the complete service entrance.
