

ENDURO SEALS

PRODUCT DATA SHEET

APPLICATIONS

Any application requiring tamper-evident security including:

- Securing electric meter enclosures
- Securing transformer compartments
- Securing switchgear cabinets
- Securing rings and sockets

FEATURES

Durable: Made of clear or colored acrylic body and galvanized or stainless steel wire hasp — These materials withstand harsh weather conditions in outdoor environments

Pick Resistant: Secure hasp mitigates picking attempts and environmental contaminants

Tamper Evident: Attempts to remove or break the seal leave clear visual evidence

Unique Engraving: Laser engraving allows logos and sequential numbering to be engraved on one side as standard, both sides optional — Engraved logos improve recognition and reduce counterfeit activity

Multiple Colors: Range of 12 different body and insert colors for easy identification and classification

Made in USA

BENEFITS

- Enhances security of electrical equipment
- Provides clear visual evidence of tampering attempts
- Durable construction ensures long-lasting performance
- Customizable for specific customers and applications

Brooks' Enduro Seal is the industry-leading indicative padlock seal designed specifically to safeguard meters, transformers, and other sensitive equipment enclosures.
