

SnapTracker Bolt Seal

The **SnapTracker Bolt Seal** brings independently verified tamper resistance, clear tamper evidence, and full serialization for the electric, gas and water utilities. The solid steel bolt provides strength with a molded plastic coating that provides tamper-evidence. This barrier-class seal has been engineered, tested, and built to meet **ISO 17712:2013 High Security** requirements.

APPLICATIONS

- **Gas** — service valves, meter sets, curb valves, regulator stations
- **Water** — meter pits, vaults, backflow assemblies, hydrant caps
- **Electric** — enclosures, CT cabinets, pedestals, transformer boxes
- **Logistics** — trailer and container door latches
- **Access Control** — contractor, third-party, and post-disconnect lockout

FEATURES

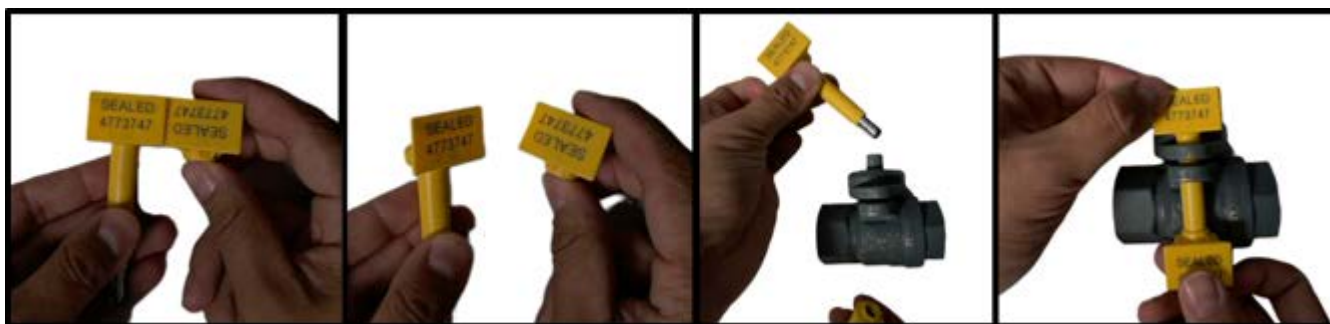

- ISO 17712: 2013 classification - High Security
- Large tag on both the bolt and body allows laser printed information to be easily read
- Both parts are numbered to prevent fraud by replacement of either bolt or body
- Parts come attached in a unique package for ease of use and accurate tracking of numbers
- Interlocking joint to protect against tampering

The Dual-Numbering Advantage

Most bolt seals number the body only. That leaves the most common defeat path open: cut the seal, then reassemble with a substitute bolt carrying no traceable mark. SnapTracker laser-marks the matching serial on both the bolt and the body. A mismatch is immediate, field-visible proof of interference — no tooling, no lab, no interpretation.

INSTALLATION — NO TOOLS REQUIRED

1 Parts arrive attached

2 Separate bolt and body

3 Insert bolt through hasp

4 Snap and lock to seal

SnapTracker Bolt Seal

MARKING/PRINTING

- Minimum quantities apply to customized versions of this product – please call for details
- Durable laser markings
- Numbering: 8 Digits and 8 Characters

COLORS

- Stock Colors Marked "SEALED": Blue / Yellow

PACKAGING

- 200 seals per box
- Gross Weight: 26 lbs per box (12 kg)
- Box Dimensions: 16" x 12" x 11"

MATERIAL

- Body: ABS Plastic with Steel Insert
- Bolt: Steel with Plastic Cover

DIMENSIONS

- Bolt Diameter with Plastic Cover: 0.45"
- Steel Shaft Diameter: 0.3125"
- Two Available Lengths: 1.75" or 2.38"
